

# SAFETY DATA SHEET (SDS)

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

### Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

## Section 7. Handling and storage

#### Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

#### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

# Section 8. Exposure controls/Personal protection

**Control parameters (biological limit values or exposure limit values and source of those values)** Exposure limits: CAS 141-43-5 – ACGIH – TLV-TWA 3 ppm (STEL 6 ppm) & PEL-TWA 3 ppm;

#### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

## Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

| Section 10. Stability and reactivity   |  |  |
| Reactivity   |  |  |
| Does not react under the recommended storage and handling conditions prescribed.   |  |  |
| Chemical stability   |  |  |
| Stable under the recommended storage and handling conditions prescribed.   |  |  |
| Possibility of hazardous reactions   |  |  |
| None   |  |  |
| Conditions to avoid (static discharge, shock or vibration)   |  |  |
| None   |  |  |
| Incompatible materials   |  |  |
| Strong oxidizing materials; etc.   |  |  |
| Hazardous decomposition products   |  |  |
| None known   |  |  |

| Section 11. Toxicological information  |                        |  |
|--|------------------------|--|
| Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)   |                        |  |
| Causes skin irritation. Causes serious eye irritation.   |                        |  |
| Symptoms related to the physical, chemical and toxicological characteristics   |                        |  |
| Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing.  |                        |  |
| Delayed and immediate effects (chronic effects from short-term and long-term exposure)   |                        |  |
| Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data availab – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available; Specific Target Organ Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard Health Hazards Not Otherwise Classified – No data available. | n Toxicity — Single    |  |
| Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )   |                        |  |
| CAS 141-43-5 LD50 oral, rat 1720 mg/kg; LD50 dermal, rabbit 1000 mg/kg; CAS 27176-87-0 LD50 oral, rat 650 mg/kg; ATE not available in this document.   |                        |  |
| Section 12. Ecological information   |                        |  |
| Ecotoxicity (aquatic and terrestrial information)  |                        |  |
| No data available for this product.  |                        |  |
| Persistence and degradability No data available  |                        |  |
| Bioaccumulative potential No data available  |                        |  |
| Mobility in soil No data available   |                        |  |
| Other adverse effects No data available  |                        |  |
| Section 13. Disposal considerations  |                        |  |
| Information on safe handling for disposal/methods of disposal/contaminated packaging   |                        |  |
| Dispose of contents/container into safe container in accordance with local, regional or national regulations.  |                        |  |
| Section 14. Transport information  |                        |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations  |                        |  |
| Not regulated  |                        |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)  |                        |  |
| Not regulated  |                        |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)   |                        |  |
| Not regulated  |                        |  |
| Special precautions (transport/conveyance) None  |                        |  |
| Environmental hazards (IMDG or other) None   |                        |  |
| Bulk transport (usually more than 450 L in capacity) Possible  |                        |  |
| Section 15. Regulatory information   |                        |  |
| Safety/health Canadian regulations specificsRefer to Section 2 for the appropriate classification. This product has been cla<br>with the hazard criteria of the Hazardous Products Regulations (HPR).  | assified in accordance |  |
| <b>Environmental Canadian regulations specifics</b> Refer to Section 3 for ingredient(s) of the DSL  |                        |  |
| Safety/health/environmental outside regulations specifics  |                        |  |
| None   |                        |  |
